

## ELECTRONIC ROOM THERMOSTAT

RSTA100005      Electronic room thermostat with neon

RSTA100010      Electronic room thermostat volt free

### OVERVIEW

An economical and simple to use room thermostat. To control room temperature, simply turn the dial until the desired level is at the temperature mark. A neon indicator lights up when the system is turned on or will switch off when the system is being turned off. The temperature can be set between 5°C and 30°C.
